PROFESSIONAL SUMMARY

Full-stack software engineer with hands-on experience shipping production web applications in Laravel, Django REST Framework, and React. Delivered live products serving real users, including a multi-platform real-estate management system (web, Android, iOS) and a salon ERP with daily financial reporting. Comfortable across PHP, Python, JavaScript, and MySQL.

TECHNICAL SKILLS

Languages: PHP, JavaScript, Python, SQL, TypeScript (basic)

Backend: Laravel, Django, Django REST Framework, REST API design

Frontend: React, Tailwind CSS, Redux / Context API

Databases: MySQL, PostgreSQL (Supabase)

Tools: Git, GitHub, Composer, npm, Postman, Linux, SSH

Deployment: DigitalOcean, Hostinger, Vercel, Google Play Store, Apple App Store

Currently learning: Next.js, Docker, Redis, Jest, PHPUnit, GitHub Actions

EXPERIENCE

Dev Tech Guru — Junior Software Engineer

Jan 2026 - Present | Dhaka, Bangladesh

- Develop and maintain features across Laravel, Django REST Framework, and React projects for real-estate, salon, and accounting clients.
- Shipped Estate-Link, a multi-module property management platform (Django REST backend, React frontend), deployed to production server, Google Play Store, and Apple App Store.
- Maintain Salon-ERP (Laravel + MySQL), live at Gulshan Salon; implemented daily mobile-financial-services (bKash, Nagad) and bank-reconciliation reports.
- Added a loan-management module to Sardar Ali Accounting (legacy PHP) and resolved billing and reporting defects in Guru ERP.
- Built an internal project management tool in React and Supabase supporting sprint planning and story-point tracking; replaced ad-hoc spreadsheets used by the engineering team.

Dev Tech Guru — Software Engineering Intern

Oct 2025 - Dec 2025 | Dhaka, Bangladesh

- Ramped up on legacy PHP codebases (Guru ERP, Sardar Ali Accounting); shipped bug fixes and small features into production within the first month.
- Picked up Laravel and React alongside legacy work; transitioned into active feature development before end of internship.

PROJECTS

Estate-Link — Django REST Framework, React, MySQL

Real-estate management platform covering service-fee billing, tenant management, finance tracking, and member management. Deployed on DigitalOcean and shipped as native mobile apps on Google Play Store and Apple App Store.

Salon-ERP — Laravel, MySQL

Production salon ERP in daily use at Gulshan Salon. Built daily MFS / bank financial reports and resolved billing and inventory bugs supporting live day-to-day operations.

Regalia (Freelance) — Laravel, MySQL

Clothing e-commerce platform with a custom-built admin panel for product, order, and inventory management. Client handover within two weeks.

Internal Project Management Tool — React, Supabase (PostgreSQL)

Internal tool for sprint planning and story-point tracking. Replaced spreadsheet-based tracking across the engineering team.

EDUCATION

B.Sc. in Statistics — University of Chittagong

2019 - 2023

LEADERSHIP

Treasurer, Chittagong University Career Club - managed club finances and event budgets; reported financials to executive leadership.
